

# Cast Polymer

Cultured stone is a manufactured product which closely resembles the desirable coloration and color veining found in natural marble. It is produced in many designs, shapes, sizes, colors, and has great deal of flexibility to fit most decors.

Cultured stone products are custom made to fit your job specifications in size, style, color, and material textures. Custom design Cultured stone is available at a surprisingly affordable price.

Cultured stone adds beauty to your bathroom vanity tops, and tub/shower surrounds. Cultured stone colors and textures are soft and soothing. All of our colors are available in either matte or gloss finish.

The goal of cultured stone products is to maintain total customer satisfaction, by producing a quality product within a guaranteed time frame.

## Cultured Stone Disclaimer:

The color samples may not precisely reflect actual color due to manufacturing (handcrafted) process of Cultured stone, variation in shade and veining are inherent. Material manufactured will resemble color sample ordered, but will not be an exact duplication. Limestone dust purity, pigment consistency, sample age, and lighting can affect the final color and the perception of material ordered. No claims or allowances will be permitted.

Cultured stone meet the requirements of IAPMO/ANSI Z124.3-2005.

## TECHNICAL DATA

PHYSICAL CHARACTERSTICS	TEST METHOD	TYPICAL RESULT
Impact Test	ANSI Z124.3	Passes
Color Fastness	ASTM D-256S	145±9°F
Wear and Cleanability	ANSI Z124.3	10.000 cycles – Passes
Cigarette Burn	ANSI Z124.3	Passes
Chemical Resistance Test	ANSI Z124.3	Passes
Thermal Shock Resistance	ANSI Z124.3	500 cycles
Stain Resistance	ANSI Z124.3	Passes
Surface Test	ANSI Z124.3	No defects
Fungi & Bacteria Resistance	ASTM	No attack
Ignition Test	ANSI Z124.3	Passes
Structural Test	ANSI Z124.3	Passes
Drain Fitting Connections	ANSI Z124.3	Passes
Load Test	ANSI Z124.3	Passes
